ABOUT US

Nashville Custom Closets® was founded by Andy Larkin to help meet a need he recognized after years in the kitchen cabinet industry: High quality, reasonably-priced custom closets, drawers and shelving – all using materials and craftsman from the United States.

As Larkin says: “Why buy a custom closet from a California company, when you can get just as good – and for less money – from right here in Tennessee?” We hope you agree with this down-to-earth philosophy too.

A master cabinet and furniture maker, Andy is also a CNC operator and consultant. CNC is short for “*computer numerical control*,” a computerized production manufacturing machine which ensures detailed, precision-perfect cuts with cabinets, drawers and a number of materials requiring pinpoint accuracy. Using CNC machines helps avoid costly mistakes and reduces production time; this is just one reason Nashville Custom Closets® can pass savings on to their clients.

He is also the founder/owner of the company’s affiliate brand, Nashville Cabinet Company®. If you are happy with your custom closet, Murphy Bed, pantry, media room or, we certainly hope you will consider NashCab (as we call it) for your new kitchen.

Andy brings this creative and technical design background – also a professional musician – to Nashville Custom Closets®.

The motto at Nashville Custom Closets®: Function meets form meets efficiency, and quality is king. Email or call us today to schedule a free consultation – you’ll be glad you did.

MURPHY BEDS

You have no doubt heard of a Murphy Bed – also called Wall Beds, or Hideaway Beds – but what may have started as a simple, functional space savers has evolved into an amazing art form unto itself. With the advent of startups like AirBNB where beds are at a premium, a Murphy Bed can add value to a rental property; Or for those who have a smaller work/live or studio space, a Murphy Bed can maximize the available space beautifully. They can sometimes cost less than a leather couch – without eating up valuable floor space.

We can create a custom design, or work from your concepts, or both, for your new Murphy Bed. Some options available include:

BLUE MOON | MOUNTAIN HIGH | TRADITIONAL | PENTHOUSE | STORYTIME | STUDIO | CLASSIC

DO YOU LOVE WINE?

The taste, the smell, the captured memory in a bottle; sharing all that with friends or family, or a date? Or perhaps you feel that pairing a great wine with a beautiful dish is among life's greatest pleasures.

Or maybe you're someone a bit more serious than just a wine lover; your collection is also an investment – many wines increase in value as time goes by – and it's time to take action to protect that investment, such as a climate-controlled environment.

But whatever level wine enthusiast you may be, you probably don't love being without the proper space your beautiful collection deserves.

If your wine storage solution includes masonry or any kind of stone, we've got you covered: We've partnered with other fine tradesmen for any needs beyond custom cabinets or shelving.

Nashville Custom Closets® can help your dreams become reality with a wine cellar, wine rack, wine cellar doors – whatever your whim or fancy, please allow Nashville Custom Closets® to help make your spirited dream a reality. Email or call us today for your free consultation.

PANTRIES

Hello Pantry!

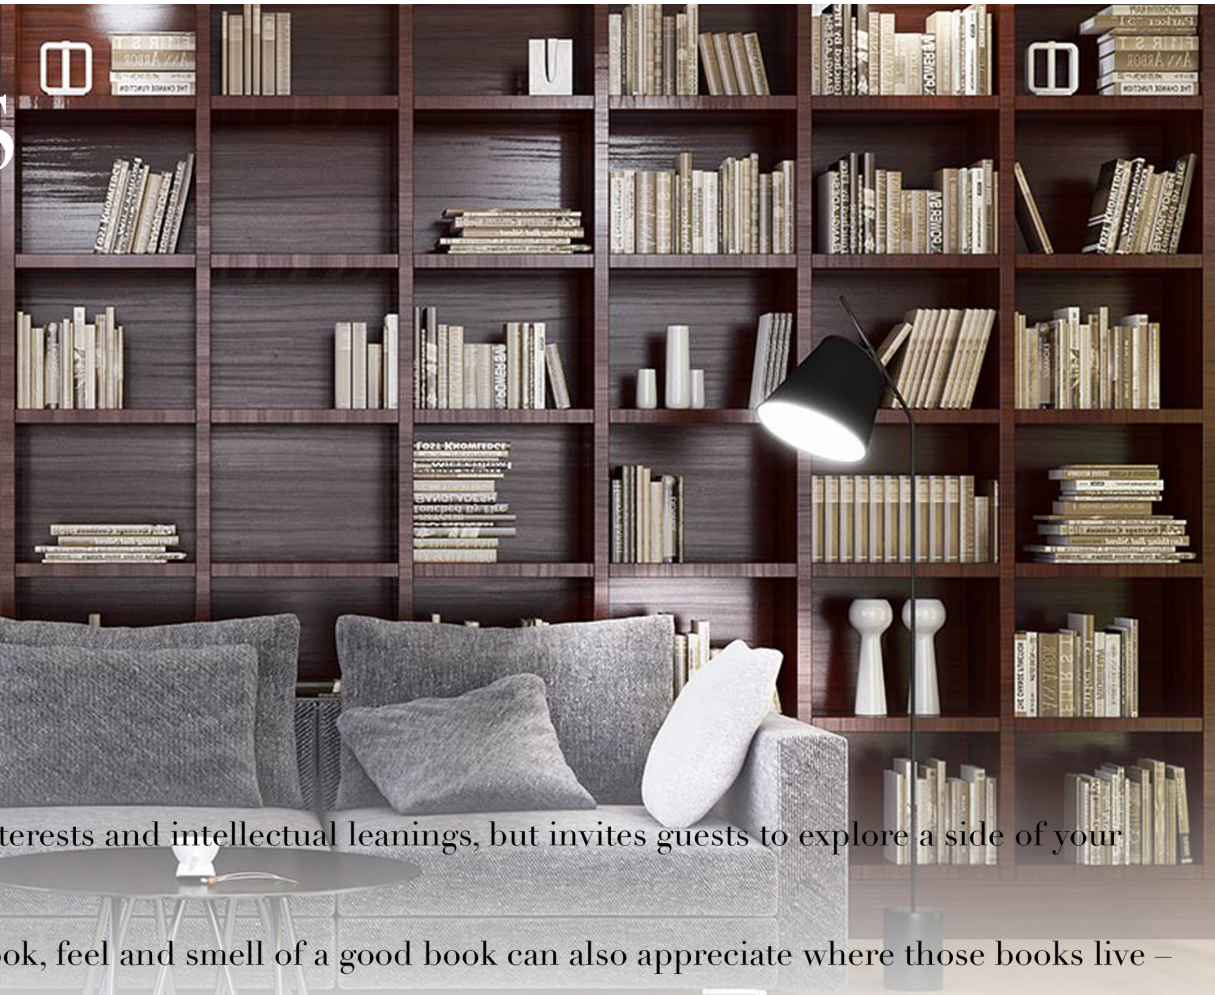

The kitchen may be the “heart of the home,” but the pantry is the room that helps keep that heart beating.

A well-organized pantry helps any and every home cooked meal go just a little smoother – especially if it also doubles as a mini wine cellar.

Our sibling company, the Nashville Cabinet Company®, has years of experience optimizing the footprint of kitchens and pantries – and we’re proud to bring this experience & skill to Nashville Custom Closets®.

We can match or complement your kitchen and cabinets, or really do whatever you’d like. Some options include pull-outs for wines, stemware, decanters, spice racks, smoked glass, baskets – the possibilities are truly endless. Email or call us today for a free quote on your beautiful new pantry.

BOOKSHELVES

A well-curated bookshelf not only speaks of your own interests and intellectual leanings, but invites guests to explore a side of your personality very few may be privy to.

They say “readers are leaders;” and those who love the look, feel and smell of a good book can also appreciate where those books live – on display in a well-considered bookshelf.

Perhaps your taste is more conservative and traditional; or perhaps it has a more modern flair; or even something in between? Industrial corner piping? Modular stacks? Slanted, curved, irregular shapes? We’ve got you covered. There’s truly not much that can’t be done – all within the scope & range of your imagination and available space.

Please allow Nashville Custom Closets® to accommodate whatever look which feels right for you – we love taking that plunge with you to create something unique to host your paper treasures.

GARAGES

So... with our help, your closets, pantry, Murphy Beds, office and media rooms are all looking fantastic; but there's still one thing that needs a little love - your garage.

Maybe someone likes to tinker around with their tools and woodworking projects; or your family is acquiring sporting equipment, bikes and cars faster than your kids are growing (you know who you are). Whatever the situation, your garage may be screaming for relief and better organization.

Let Nashville Custom Closets dazzle you with some shelving and storage ideas you may not have considered; you'll breathe easier and feel the weight of all that clutter drift away. Email or call us today for a free quote.
